

APPRENTICESHIP CERTIFICATE

Apprenticeship Certificate

This certificate is designed for non-degree-seeking undergraduate students. The certificate is completely online and offered within the Department of Civil Engineering in the College of Engineering and Polymer Science. The certificate curriculum prepares students for careers in the construction industry as field inspectors and first-line foremen working under the supervision of a project manager or superintendent.

The following information has official approval of The Department of Civil Engineering and The College of Engineering and Polymer Science, but is intended only as a guide. Completion of this certificate is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.

The following courses constitute a “Apprenticeship Certificate” and must be completed with a minimum grade point average of 2.0 overall for the certificate to be noted on the student’s record.

Required Courses: 15 Credits
