

TremSafe Guardrail A.S.

TremSafe Guardrail A.S. is a passive fall protection system designed for safety and fall protection on rooftop applications. It combines a non-penetrating guardrail system with architectural appeal for applications where railing appearance is important.

TremSafe Guardrail S

TremSafe Guardrail S is a non-penetrating, passive fall protection system designed for rooftop safety and fall protection. Available in two standard finishes, safety yellow powder coat and galvanized.

TremSafe Heavy-Duty Warning Lines

TremSafe Heavy-Duty Warning Lines are a cost-effective, permanent visual warning line system for roof edge protection and controlled access zones.

TremSafe Hatch Guard

TremSafe Hatch Guards provide a non-penetrating solution for safe entry and exit through roof access hatches. Each system comes standard with a grab-bar for easier egress and ingress and a TremSafe Self Closing Gate.

*TremSafe Solutions meets applicable safety standards in the U.S. and Canada to protect people working at heights.

NOW YOU CAN LEAD WITH SAFETY. Contact your Tremco Roofing sales representative today for a rooftop safety evaluation.

Roofing & Building Maintenance

TremSafe Skylight Guard

The TremSafe Skylight Guards are specifically designed to protect against injuries and deaths around skylight openings. The non-penetrating design is available in customizable sizes and features a unique compression attachment system. It installs in minutes and since there is no drilling required, you'll keep your surfaces uncompromised while maintaining a safe work environment for your employees.

TremSafe Rooftop Ladder Access System

The TremSafe Rooftop Ladder Access System protects individuals accessing the roof from the ladder, safely taking them out either 7.5', 10', or 15' from the ladder and roof edge. Available in two standard finishes, safety yellow powder coat and galvanized.

TremSafe Self-Closing Gate

TremSafe Self-Closing Gate allows ease of movement through transition areas such as ladder openings; the same gate that comes with our TremSafe Hatch Guard system, and is capable of swinging in either direction. Comes standard in five standard sizes and is available in two standard finishes, safety yellow powder coat and galvanized.

TremSafe Ladder Door System

The TremSafe Ladder Door System offers additional security to prevent unauthorized access to ladders. This system is 6' tall and comes standard in 20", 22", and 28" widths allowing it to be attached to ladders of various sizes. It is made of durable, rust resistant 16 gauge galvanized steel.

*TremSafe Solutions meets applicable safety standards in the U.S. and Canada to protect people working at heights.
