

Zippering Through

R.I.S.E.

One chapter ends, a new journey begins.

Its time to celebrate! At the end of the Spring 2026 semester three R.I.S.E. students earned their associates degree in Construction Management!

Abraham Garcia

Jacob Hunter

Frankie Lozoya

Two R.I.S.E. students also earned their Apprenticeship Certificate and are now Journeyman roofers! What a great accomplishment for them both as they advance in their careers.

Robert Castillo

Matthew Werther

We are so proud that all of our graduates have decided to continue on their educational journey with R.I.S.E. Each of our construction management graduates will continue on to pursue their bachelor's degree in organizational supervision.

Our journeyman will both enroll in the construction management associates degree program.

Zippering Through

R.I.S.E.

One chapter ends, a new journey begins.

R.I.S.E. is more than earning a degree, Abraham says *“the most rewarding part of joining the R.I.S.E program other than earning my degree has been learning how to manage both work and school at the same time.”*

R.I.S.E. is designed to help students build their career path towards construction management while working and gaining hands on work experience. According to Jacob *“the most rewarding part of the R.I.S.E. program was the opportunity to continue my education while working full time, helping prepare me for the next step in my career.”*

R.I.S.E. prepares its students for all aspects of the business. Students may work in various departments to get a solid understanding of the duties of a construction manager. Frankie, says he’s really appreciated this opportunity. He says *“I have been able to learn so much not just how to put our materials down and finish a roof but I have worked on the business side as well with the admin group learning about our contracts and the inspection side as well over on the OLI department.”*

We are happy to hear that R.I.S.E. is working for these graduates and hope that others at WTI will be inspired to join them. For more details about R.I.S.E. visit the website <https://info.tremcoroofing.com/rise-home>.
